ICYMI – Advancing Health Justice in a Turbulent World: A University of Ottawa Symposium Commemorating 75 Years of the Universal Declaration of Human Rights and the World Health Organization

On December 8th, the IG co-sponsored this symposium hosted in-person and online at the Faculty of Law (Common Law Section), University of Ottawa. Featuring keynote lectures by Professor Alicia Ely Yamin from Harvard University & Partners in Health and Professor Benjamin Mason Meier from the University of North Carolina at Chapel Hill, alongside panels of experts from institutions worldwide, this public symposium:

• took stock of negotiations to reform global health laws as they relate to pandemic preparedness;
• examined what human rights frameworks bring to future pandemic-related law reform; and
• facilitated a forward-looking perspective on how human rights law must evolve to better address global health threats.
